

YOU'LL LOVE OUR iOS APP!

PhET Interactive Simulations is an award-winning trusted resource for STEM classrooms worldwide. Teachers love PhET simulations because they actively engage K-12 students in science and math. From remedial to accelerated instruction, PhET supports all learners to achieve STEM standards.

Our app has all the benefits of PhET, **PLUS:**

- ▶ **Ease of use**
All the PhET HTML5 sims on an iPad or iPhone
- ▶ **Offline use**
No need to depend on internet connection
- ▶ **Translated into 11 languages**
Perfect for ESL students
- ▶ **Automatic updates**
More sims each year (83 and growing)
- ▶ **Easy to manage**
No student login or data. VPP & MDM.
- ▶ **Affordable**
Only \$0.99 for lifetime access

LOVE PhET?

With the app, all students can now be assigned a simulation to use on their iPads at home [without needing internet].

Carol Peabody
Chemistry Teacher

I had my students use a PhET simulation on the iPad ... Their scores on the unit test were the best I've ever seen.

Science Teacher

I've never found an equivalent to PhET ... \$0.99 per download is nothing for the amount of value you get.

Bree Dreyfuss
Teacher
